

# SH-Fm Shunt Resistors

## USE :

The interchangeable shunts are used to multiply the measuring range of current of measuring instruments.

## APPLICATION :

For Telecommunications equipment, Electric cars, Aerospace, Charging station, Electroplating Power Equipment, Instrument and meter, Dc power system, etc.

## GENERAL SPECIFICATIONS

Model	Rated Current[A]	Rated Voltage[mV]	Resistance Range[mΩ]
SH-Fm	1~50	10~800	10~16
1A~150A	51~2500	10~300	0.2~0.12

## CHARACTERISTICS

Ambient condition	-25℃~40℃
Relative humidity	≤80%(35℃)

## DIMENSIONS

**SH-Fm 1A--150A**

60mV,75mV,100mV

25~50mV

Model	Dimensions(mm)							
	25~50mV		60mV		75mV		100mV	
	A	B	A	B	A	B	A	B
1A-80A	X	X	63	28	78	28	78	28
100A-125A				30		30		
150A				33		33		
1A-125A	45	28	X					
150A		30
